## **DETAILED ACTION**

### ***Response to Amendment***

The examiner acknowledges the applicant's submission of the amendment dated 7/10/2008. At this point, claims 1-22 have been canceled, claims 23-30 have been added. Thus, claims 23-30 are pending in the instant application.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 23-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Shiraishi et al. (US 6,989,289).

Regarding claim 23, Shiraishi et al. disclose a capacitor comprising:

- a positive electrode (1) of a valve metal,
- a dielectric (3) of an anodized film formed on the valve metal, and
- a negative electrode (5) including a composite material in contact with the anodized film,
- wherein the composite material includes a conductive polymer and an ionic liquid capable of repairing a defect in the anodized film (claim 1).

Regarding claim 24, Shiraishi et al. disclose the conductive polymer includes at least one selected from polypyrrole (column 22, lines 31-32).

Regarding claim 25, Shiraishi et al. disclose the negative electrode further includes a metallic part in contact with the composite material (column 19, lines 28-31).

Regarding claim 26, Shiraishi et al. disclose a method forming the capacitor comprising the steps of:

- preparing a mixture including the ionic liquid and at least one kind of monomer,
- making the mixture be in contact with the anodized film, and
- causing polymerization in the mixture to convert the at least one kind of monomer into the conductive polymer (see, claims 1-7).

Regarding claim 27, Shiraishi et al. disclose the ionic liquid having been included in the mixture is remained in the composite material after the polymerization.

Regarding claim 28, Shiraishi et al. disclose a method of forming the capacitor comprising the steps of:

- preparing a layer of the conductive polymer, and
- impregnating the layer of the conductive polymer with the ionic liquid (see, claims 1-7).

Regarding claim 29, Shiraishi et al. disclose a source material kit for forming the composite material to be used comprising, an ionic liquid, and at least one kind of monomer.

Regarding claim 30, Shiraishi et al. disclose the monomer is to be used for forming one selected from polypyrrole.

#### **Citation Relevant of Prior Art**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. Shiraishi et al. (US 6,239,965) disclose electrolytic capacitor and method of producing the same.

#### **Conclusion**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
